In this day of quick fixes and one-hour procedures over-promising what can actually be accomplished, it is now more important than ever to have a trusted plastic surgery office committed to safety, experience and lasting results above all else.

A Board Certified Plastic Surgeon since 1979, Dr. Joseph E. Mark, MD has the experience, knowledge, skill, education and artistic approach to fulfill the realistic expectations of his patients.

Dr. Mark's state-of-the-art office, located in Rochester Hills has become the areas most trusted location for surgical and non-surgical procedures.

"It is not enough to provide successful, life changing surgical outcomes, the patient's whole being – mind, spirit and body – must be addressed and nourished. I operate on people, not body parts," states Dr. Mark.

Once guests walk through the beautiful glass doors of Plastic Surgery Arts and Spa, they realize this is not an average doctor's office. Guests are greeted with a smile and enveloped in an atmosphere of glamour and sophistication.

Along with offering a comfortable, elegant facility, Dr. Mark also has the accreditation to assure that the highest professional standards and privacy are being held at all times. Plastic Surgery Arts is accredited by the Joint Commission for Accreditations of Healthcare Organizations (JCAHO), and has been a member of the American Society of Plastic Surgeons (ASPS) since 1979 as well as numerous other societies.

If surgery is the best option, it can be performed onsite. Dr. Mark is also on staff at several local hospitals to offer patients a choice of where their procedure will be performed.

For those who want to explore the many non-surgical options that can improve your appearance, health and lifestyle, the Spa at Plastic Surgery Arts offers a wide array of services that will leave each guest feeling rejuvenated and refreshed.

Whether it's a mojito pedicure, a chocolate body wrap or a de-stressing massage, the Spa is a decadent experience. Senior esthetician, Jennett McLane, PCE is an accomplished injector in Botox, Dysport, Restylane, Juvederm, Radiesse and Sculptra to name a few.

Her ongoing training in the industry's latest techniques assures complete client satisfaction.

Current clients are raving about the latest addition to our non-surgical enhancements, Lipo-Shaper—it reduces fat and cellulite, tightens the skin and works on every area of the body and face.

When SAFETY, EXPERIENCE, EDUCATION and CREDENTIALS MATTER.....
